

DIPTIRANJAN MAHAPATRA

Aspiring Software Engineer

☎ +91-7847946568 ✉ mahapatradiptiranjan064@gmail.com  linkedin.com/in/DiptiranjanMahapatra  github.com/Diptiranjan41

Summary

6th-semester B.Tech (CSE) student with extensive hands-on experience in **Java, MERN stack, Python, and MySQL**, specializing in full-stack web development and AI-driven systems. Aspiring to join **ISRO VSSC** as an intern to contribute cutting-edge software solutions for space technology projects while enhancing technical expertise and problem-solving capabilities.

Skills

Programming Languages: Java, Python, JavaScript

Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js)

Databases: MySQL, MongoDB

Tools & Technologies: Git, VS Code, REST APIs, Postman

Concepts: Object-Oriented Programming, Full-Stack Development, AI/ML Basics

Projects

Travel Web Application | *MERN Stack*

Sep 2025 – Oct 2025

- Developed a full-stack travel booking platform with dynamic routing and user authentication.
- Implemented search, booking, and review features with MongoDB backend.
- Deployed the application on a cloud platform for live usage.

AI Career Recommendation System | *Python*

Oct 2025 – Oct 2025

- Built an AI-based career guidance tool that suggests suitable careers based on user input.
- Implemented basic machine learning algorithms with a web interface for interaction.

E-commerce Web Application | *MERN Stack*

Dec 2025 – Jan 2026

- Developed an online shopping platform with product listing, cart management, and checkout functionality.
- Integrated MongoDB for backend data management.

Plant Disease Detection System | *Python, AI*

Jan 2026 – Feb 2026

- Implemented AI-powered image classification to detect plant diseases from leaf images.
- Provided recommendations for disease management using Python libraries.

Education

• Bachelor of Technology (B.Tech) in Computer Science Engineering

Expected Graduation: 2027

GITA Autonomous College, Bhubaneswar

CGPA: 7.94 / 10

Relevant Coursework: Data Structures, Algorithms, Web Development, Artificial Intelligence & Machine Learning, Database Management

Certifications & Achievements

- Completed **Data Structures & Backend with Java** (Coursera).
- Completed **Foundations of User Experience (UX) Design** (Coursera).
- Successfully completed the **CodeAlpha Virtual Internship Program in Full Stack Development** from June 2025 to July 2025, demonstrating dedication, technical skills, and consistent performance throughout the internship.
- Participated in college-level coding competitions and hackathons.

Extracurricular Activities

- Active member of the CSE Society and Coding Club, contributing to peer learning and technical events.
- Volunteered in organizing and conducting technical workshops, seminars, and hackathons.
- Participated in college-level tech competitions, fostering teamwork, leadership, and problem-solving skills.
